Mysore Public Works Department,

No. 9839 Central Office,

Dated Bangalore, 26th November 1910.

From

M.Visvesvaraya, Esqr, M.I.C.E.,

Chief Engineer of Mysore,

Bangalore,

To

M.Kantaraj Urs, Esqr, B A.,

President, Mysore City Improvements Trust Board,

Mysore

Sir,

With reference to correspondence ending with the General and Revenue Secretary's letter No 1745/Fl 63-09-4 dated the 22nd August last (copy attached), I have the honour to inform you that in my opinion houses built of cement hollow blocks are not likely to solve the question of constructing poor houses in Mysore and it is not desirable that experiments should be made at Government expense in that direction

2 With regard to the statement that Mr D'Cruz is willing to purchase the machinery if not required by the Board, I trust on reconsideration, the Board will agree with me that an officer lent by the P W Department should not be allowed to mix up his personal transactions with official duties in the manner suggested, as they tend to impair the value of his services to the Board

3. I am unable to recommend the purchase of machinery for making hollow cement concrete blocks

Mr D'Cruz informs me that he has already [illegible] machinery of the value of about Rs 400 If the Board

the machinery already actually purchased may be paid for, as a special case to prevent any actual loss to that officer

I beg to suggest that in transaction of this character the previous sanction of Government may be obtained in future.

I have the honour to be,

Sir,

Your most obedient servant,

(Sd) M.visvesvaraya,

Chief Engineer of Mysore

No 9843 Dated Bangalore 26th November 1910

Copy of above is forwarded with compliments to the Secretary to Government, General and Revenue Departments, for information

Deputy Chief Engineer,

Mysore P W D
